

## Why take Lessons with Gretchen at the Highlands Golf Park?

The Highlands is Central Virginia's premier golf practice facility and is the ideal place for juniors to improve their golf game. It is a comfortable non-intimidating learning environment where people feel at home while they learn/practice their golf game.

The Highlands is open year round – rain or shine. In addition to the large quality grass areas, there are also numerous heated/sheltered hitting stations. Not to mention, 2 sand bunkers, a practice putting green and a pitching area. In short, instruction on all aspects of your game can take place at any time.

As a dedicated professional, Gretchen enjoys helping juniors of all ages and skill levels improve their golf game. Students have described Gretchen as a patient instructor with very effective communication skills. For

Gretchen, learning and improving are never points to be reached, but rather paths that are traveled.

*“I know how important it is to start with basic skills and build your game from there. The biggest thing is to enjoy the sport and always have fun with it.”*

---

### General Information
